

## Be the teacher who gives your students a competitive edge for their future!

Out of everything WorldStrides does, offering free credit to our travelers is one of the things of which we are most proud!

Earning academic credit gives students a competitive advantage on their college applications, it starts them on the right path to a successful completion of higher education, and it gives them the opportunity to distinguish themselves as a savvy traveler and online learner.

### And, it's super easy to get started!

As a teacher leading a program with WorldStrides, we encourage you to help your students to take advantage of this fantastic opportunity.

All your students have to do is visit our easy-to-use MyTrip website, sign up for a course, and work at their own pace within a six-month window to complete their online coursework.

They'll work with our instructors who will provide feedback as they go, using video responses, photos of their experience, and chances to engage in discussions with their peers.

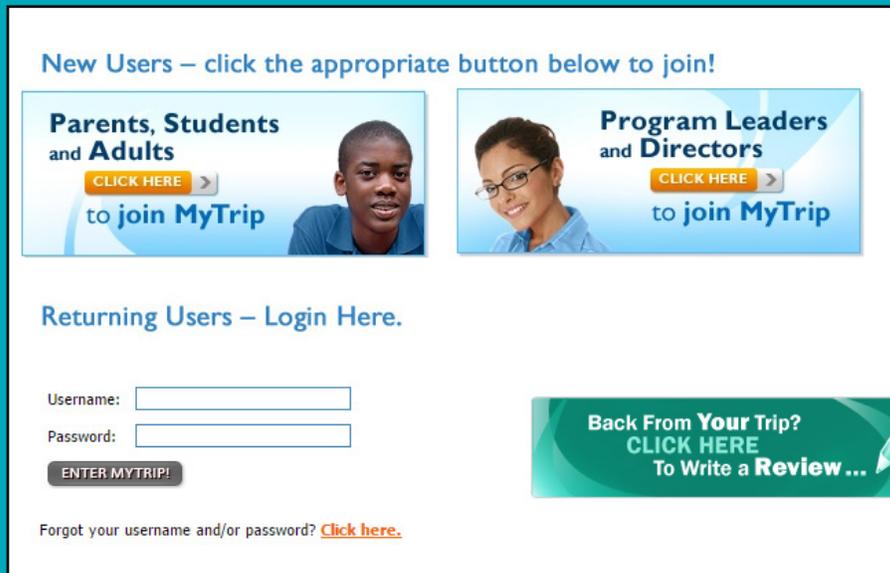

Once you've completed both the travel program and the online portion successfully, you'll receive an official transcript from WorldStrides or our university level partner.
