The Road Not Taken

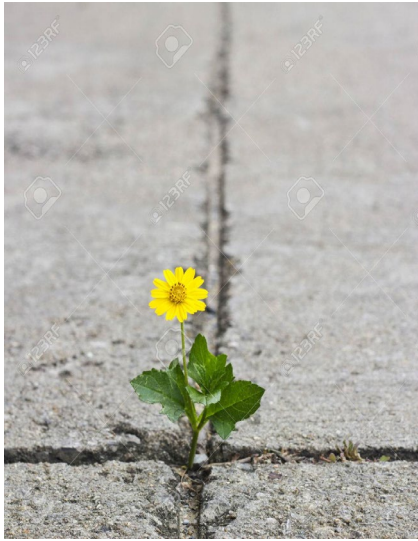

*I shall be telling this with a sigh
Somewhere ages and ages hence:*

Two roads diverged in a wood, and I—

I took the one less traveled by,

And that has made all the difference

- Robert Frost

Intentional Itinerary Planning

Customized travel offerings to ensure:

- **Curriculum Integration** - Direct correlation between the theme of the travel program offered and actual classroom curriculum to deliver optimal academic outcomes.
- **Lesser Known Locations** - Itineraries and travel experiences that accomplish the above by going to other locations than the students have already regularly explored in the past.
- **Experiential Innovation** – Culturally immersive and uniquely engaging experiential activities that deliver deeper levels of understanding (than traditional tourist content).

A Much Prized Confirmation of Your Visit from CERN!

Dear Sir/Madam,

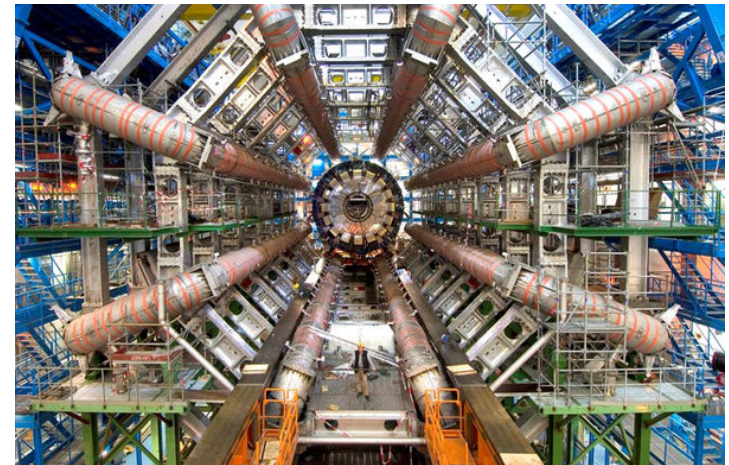

Your request 3215625 for a group guided tour at CERN on Sat 15/Jun/2019 at 09:00 is accepted but not yet finalized.

CERN sites access rule require each visitor to wear visibly a personal visitor badge. Thanks to confirm the identity of all visitors on <http://myguidedtours.cern.ch> at the latest 21 days before the visit date. Any information not given in due time will lead to the cancellation of the tour for the concerned visitors.

We remind you that important safety instructions are applicable to all CERN Guided Tours. Failure to respect any of these instructions may lead to your guided tour being cancelled! Please read them carefully and share them with all visitors.

You can at any time check the status, modify or cancel your guided tour requests on <http://myguidedtours.cern.ch>.

Best regard,
CERN Visits Service

Educational Opportunities at CERN

Journey Through CERN

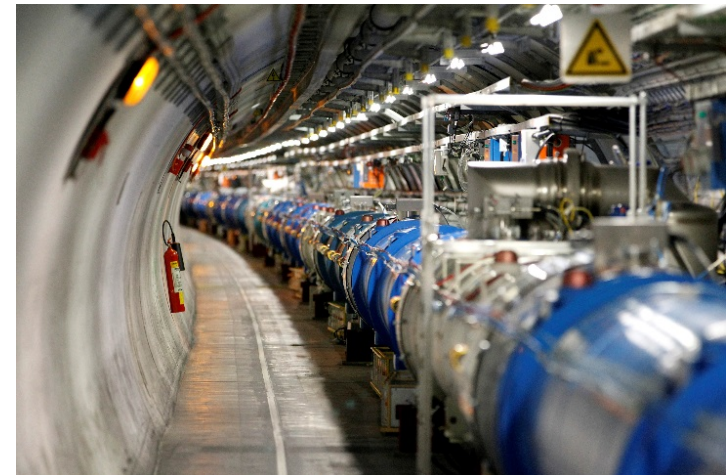

- Find out what is happening at the Hadron Collider and meet the people who operate this extraordinary machine. Take a journey through CERN's key installations and follow the path of particles from a bottle of Hydrogen, through the accelerators and on to collision inside vast experiments.

Universe of Particles

- A totally unique experience visiting the exhibition "Universe of Particles". The purpose of the "Universe of particles" exhibition is for visitors to confront the great questions of contemporary physics, currently being explored at CERN via the Hadron Collider.

S'Cool LAB

- By getting hands-on with physics in S'Cool LAB, groups make discoveries independently, learn to work scientifically and apply knowledge in a new setting. Students have the chance to engage directly with members of CERN's scientific community.

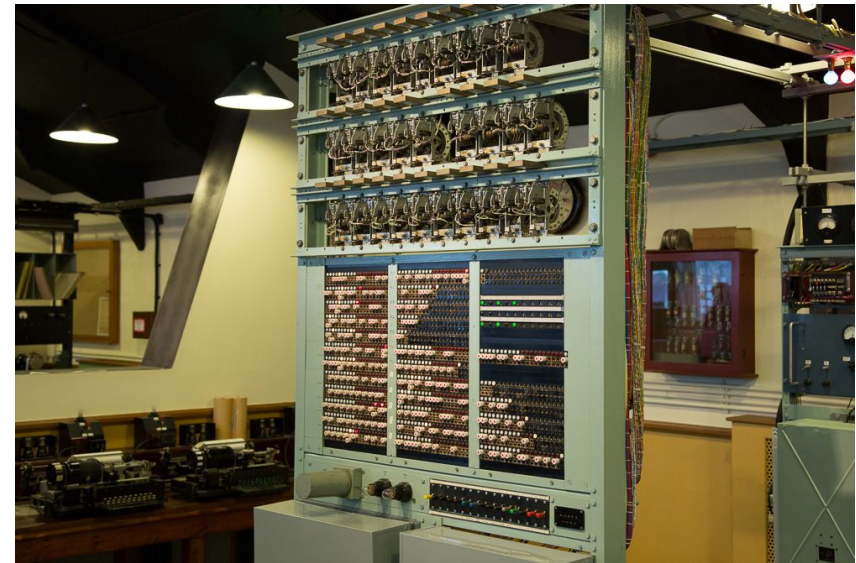

Math, Physics, and Code-Breaking in England

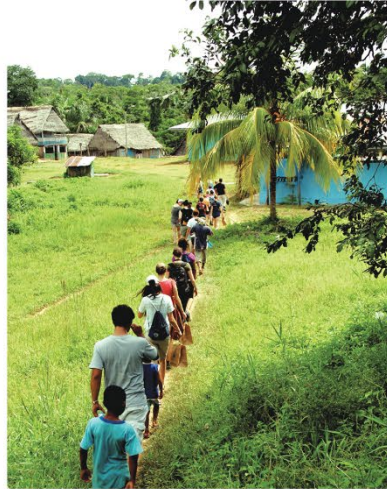

- DAY 1 DEPARTURE FROM USA
- DAY 2 ARRIVE LONDON - CAMBRIDGE
- Walking tour of King's College, Trinity College, and Magdalene College
- DAY 3 CAMBRIDGE (PHYSICS AND MATH)
- Cavendish Museum, Isaac Physics Workshop
- DAY 4 CAMBRIDGE - BLETCHLEY PARK - LONDON
- Bletchley Park, London walking tour
- DAY 5 MATHEMATICAL STONEHENGE & BATH
- Math and astronomy at Stonehenge, walking tour of Bath
- DAY 6 LONDON (KINGS AND QUEENS OF ENGLAND)
- Westminster Abbey, Thames River Cruise, "Think Maths" session
- DAY 7 LONDON (ROYAL INSTITUTE)
- L'Oréal Young Scientist Center Workshop, Faraday Museum or London Science Museum
- DAY 8 DEPARTURE FROM LONDON

Bletchley Park – Math and Computing Workshops

- **Story of Enigma**
 - The iconic Enigma machine is one of the most well-known aspects of the Bletchley Park story. Students gain deeper knowledge of the Enigma cipher, having learnt about its origins and operation.
- **Codes and Ciphers**
 - Students tackle complex processes and are introduced to mathematical techniques in order to solve a codebreaking challenge. They also have the unique opportunity to see a genuine Enigma machine and to engage in its design and role in WWII.
- **Cyber Security**
 - Students examine how Bletchley Park's Codebreakers exploited vulnerabilities and basic breaches of protocol to break encrypted messages. Students develop an understanding of how these techniques are still as relevant in today's connected world.

- Serviam built on a culture of service established centuries ago by our foundress, St. Angela Merici
- Our Focus on Global Citizenship our mission has global citizenship at its core and we actively thrive to live our mission

A Commitment to Global Education

- Global Education as a strategic initiative began 5 years ago as a part of our strategic plan and that commitment to experiential learning is a pillar of our current 4-year strategic plan
- Our Ursuline network is the foundation of our Global Education Program and continues to be at the center of most of our programming
- Experiential Learning Experiences at Ursuline have grown to be a balance of cultural immersion, sister-school exchange, and service learning

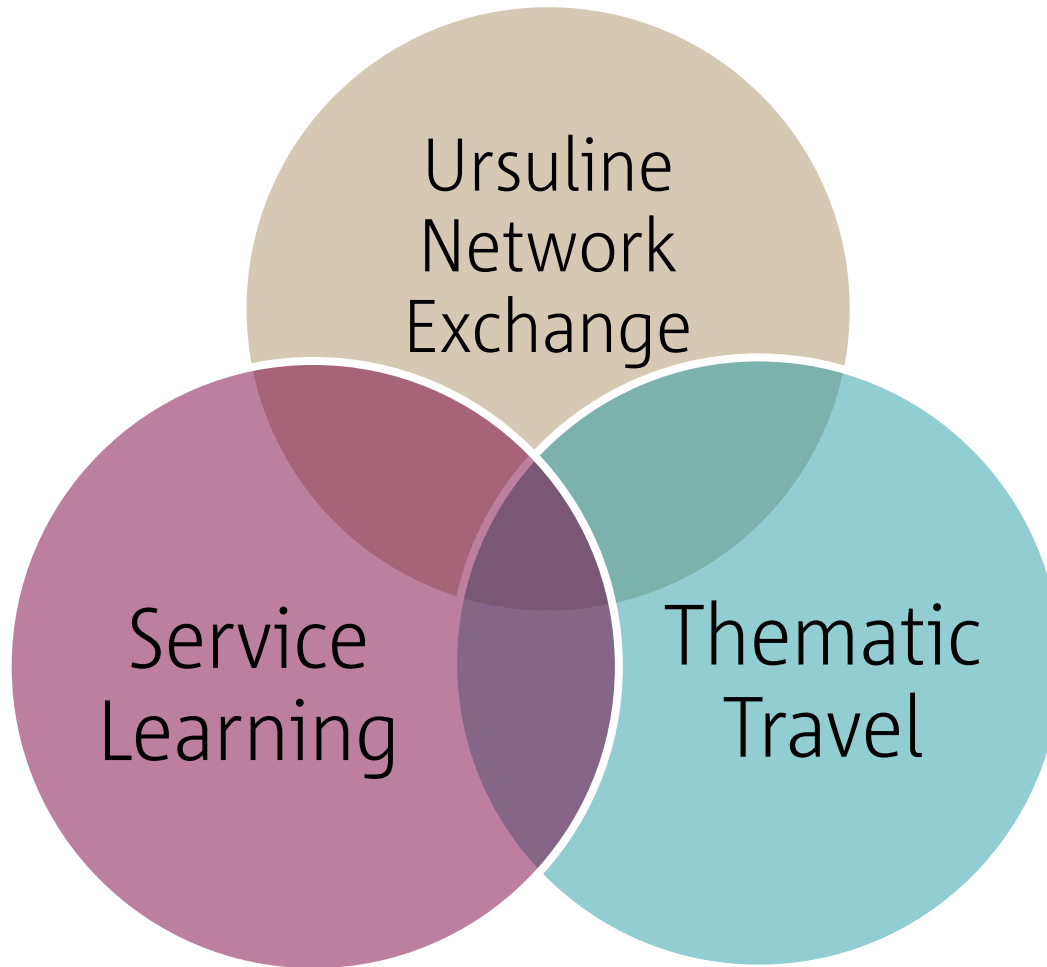

Educating Women as Global Leaders

Ursuline strives to provide an environment that empowers young women, encourages their intellectual curiosity, and fosters active participation in the classroom. Our all-girls environment coupled with our superior academic curriculum and vibrant school community creates female leaders who are intellectually, socially, and spiritually prepared for successful futures in college and beyond.

WorldStrides®

Announcing our
Global Education Partnership Program

At WorldStrides we believe that schools benefit from strong partnerships with organizations who share the goal of transforming their students' lives through travel. Our Global Education Partnership Program is our way to extend further support and resources to partner schools and educators who call on us for all of their international travel needs.

Here are just a few key program features:

Your partner in safety and security
Our Global Education Partners get exclusive access to our monthly Regional Security Forecasts. We compile these reports by continent and identify any countries where there is elevated concern about travel in the near future.

If you have any safety concerns or questions about your planned destination for a WorldStrides trip, we can also provide our high-level country-specific assessment of travel conditions on the ground, for use in your program planning process.

If there is a significant civil or political incident in your confirmed trip destination with WorldStrides within the applicable academic year, we can arrange for a personal consultation with our VP of Risk Management. Upon request, we can also make available our country-specific on-the-ground travel conditions report on a weekly basis, until the concerning situation has normalized.

Your partner in elevating educational outcomes
Take advantage of our personalized webinars to educate all parties on how the travel process works, and the academic advantages of travel for students:

- Pre-departure teacher webinar with practical recommendations for taking students abroad
- Pre-travel parent/student webinar promoting the value of educational travel and the credit opportunities it provides
- Post-travel webinar explaining:
 - our a college-credit offer (made possible through our partnership with the University of California, San Diego)
 - how all travelers can earn credit through our online course offerings in combination with their travel experience and on-tour instruction hours, where applicable.

See other side for preferential scholarship opportunities for our Global Education Partner schools or central district offices.
