

## Thanks for downloading our tiled calendar!

Use these instructions to make it a snap to assemble  
and post on your wall.

### Instructions

	Start with the first row of pages. (Pages 1 and 2)
	Cut the second page along the dotted lines.
	Apply glue to the colored area on the right side of the first page. Attach the second page to this area.
	Repeat these steps for the second row. (Pages 3 and 4)
	Once both rows are assembled, apply glue to the colored area at the bottom of the first row. Attach the second row to this area.
	Trim the outside edges and you're finished!

2019/AUGUST

*Trim edges once all pages are glued together*

	Sun	Mon	Tue	Wed
--	-----	-----	-----	-----

	Only one letter doesn't appear on the periodic table.		Bananas are radioactive.	It's impossible to burp in space.
	4	5	6	

	Elephants can recognize themselves in a mirror.	Fireflies produce the most efficient light in the world.		
	11	12	13	14

			The sunset on Mars appears blue.	It can take ten minutes for a rain drop to travel from a rain cloud to the floor.
	18	19	20	21

	Bees can count – all the way up to 4.			If you spin a ball as it drops, it will fly.
	25	26	27	28

“Though we travel the world over to find the beautiful, we must carry it with us or we lose it.”

Trim edges once all pages are glued together

Wed	Thu	Fri	Sat
There are more trees on earth than stars in our galaxy.	1	2	3
It's impossible to burp in space.	7	8	9
Octopuses have three hearts.	14	15	16
A giraffe sleeps only around two hours each day.	21	22	23
Each of your eyeballs is moved by 6 muscles.	28	29	30
It can take ten minutes for a raindrop to travel from a rainforest's canopy to the floor.	31		
Great apes have no appreciation of music – all music is meaningless sound.			
If you spin a ball as it drops, it will fly.			
You can tell the temperature by counting a cricket's chirps.
