

# Thanks for downloading our tiled calendar!

Use these instructions to make it a snap to assemble and post on your wall.

## Instructions

	<p>Start with the first row of pages. (Pages 1 and 2)</p>
	<p>Cut the second page along the dotted lines.</p>
	<p>Apply glue to the colored area on the right side of the first page. Attach the second page to this area. (There will be a little bit of overlap, but that's ok! This ensures that your calendar will look great when finished.)</p>
	<p>Repeat these steps for the second row. (Pages 3 and 4)</p>
	<p>Once both rows are assembled, apply glue to the colored area at the bottom of the first row. Attach the second row to this area.</p>
	<p>Trim the outside edges and you're finished!</p>

Trim edges once all pages are glued together

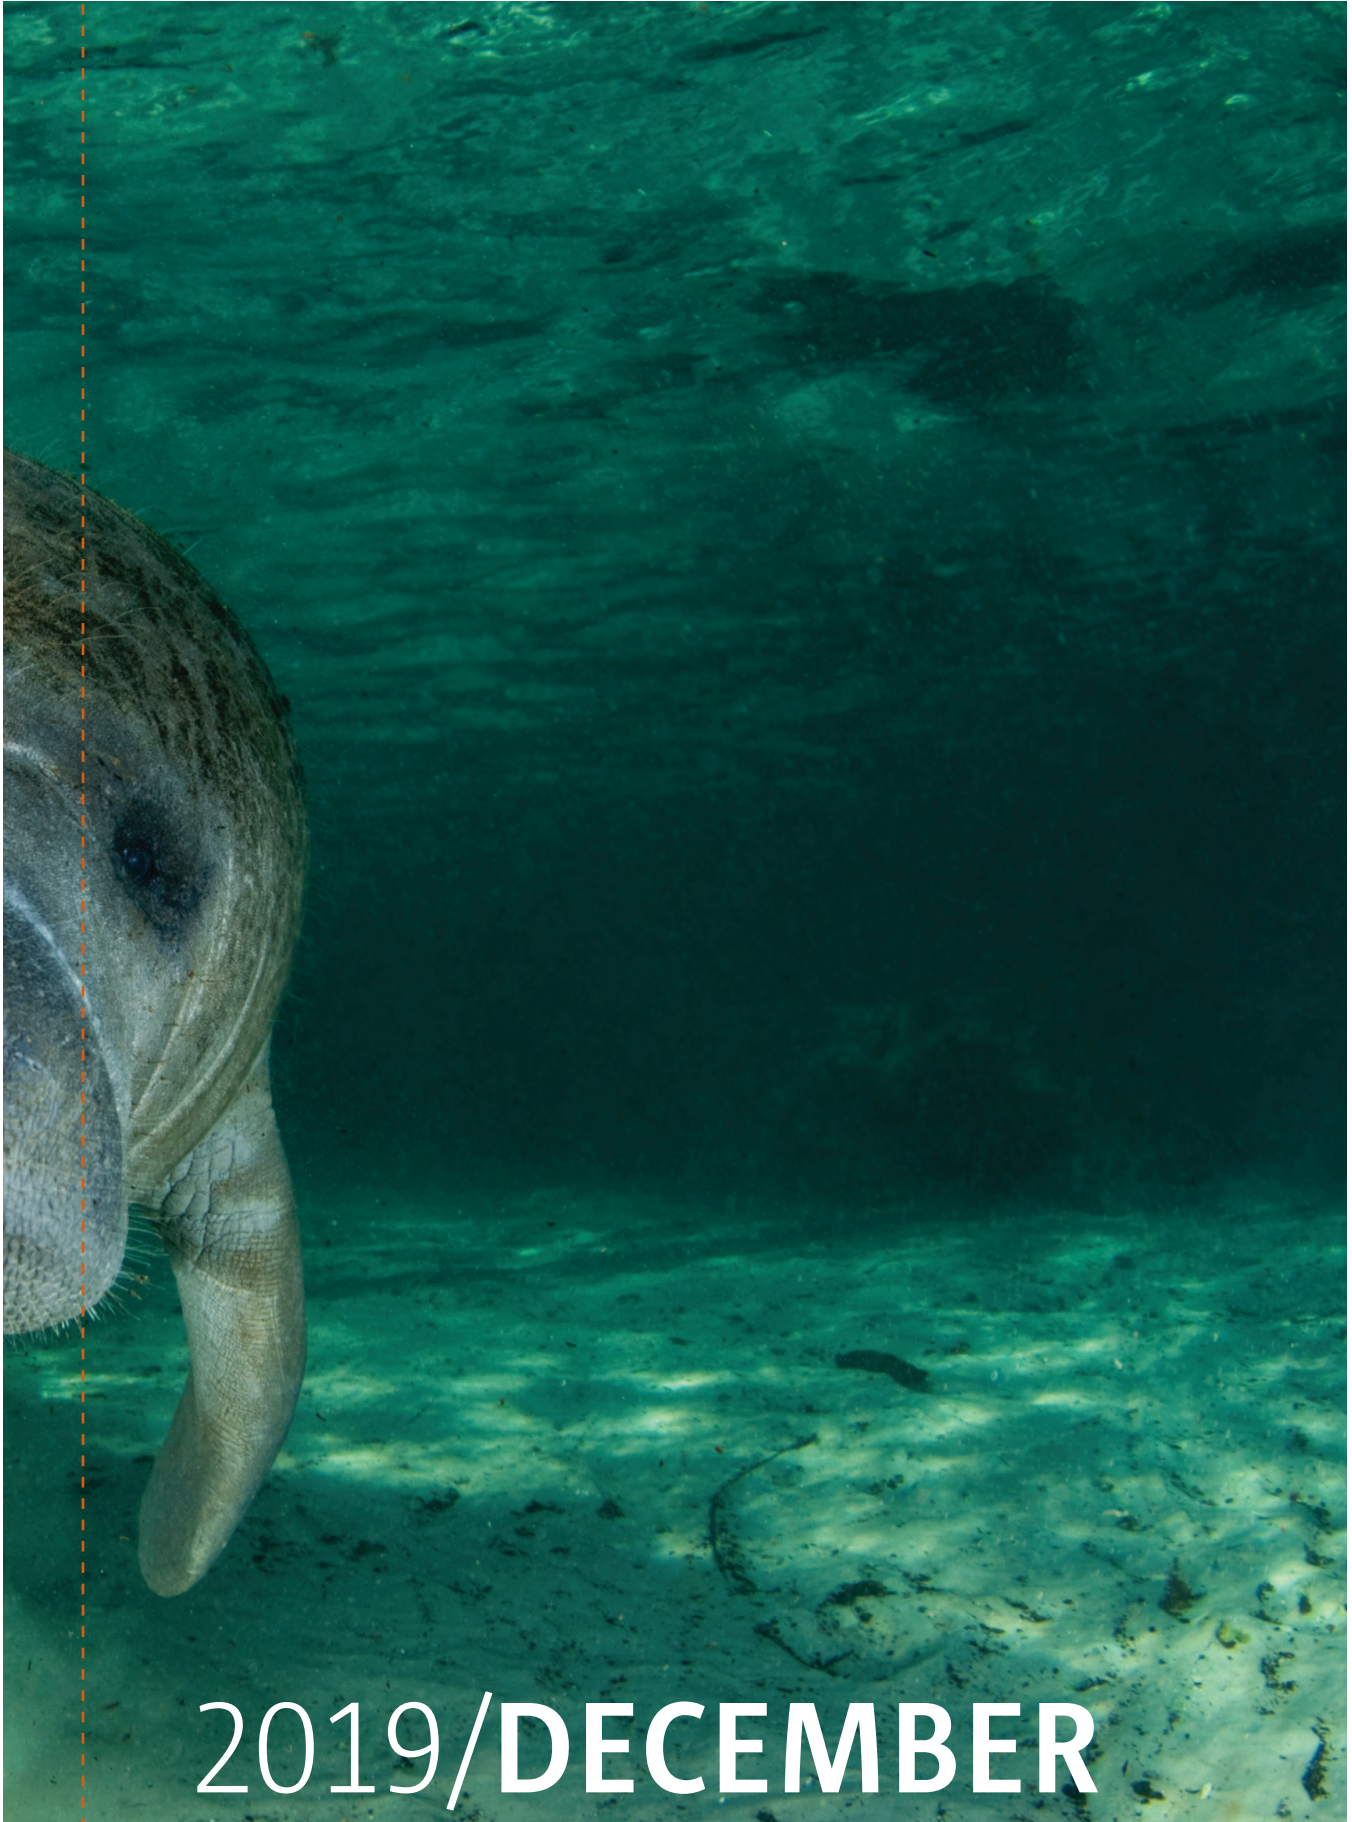

Trichechus manatus latirostris

20

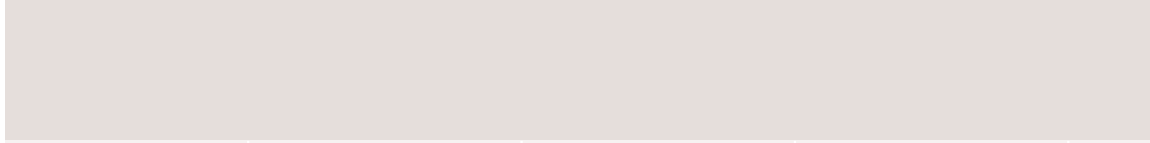

2019/DECEMBER

*Trim edges once all pages are glued together*

Sun Mon Tue Wed

1

Although oxygen gas is colorless, the liquid and solid forms of oxygen are blue.

2

3

On average, human male brains are larger than female brains.

4

The desert locust is the world's most destructive insect. A large swarm of desert locusts can cover up to 460 square miles and consume 423 million pounds of plants in a day.

8

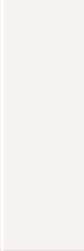

Jellyfish do not have a brain.

9

The only letter that doesn't appear on the periodic table is J.

10

11

15

An alligator's tongue is stuck to the bottom of its mouth so it cannot stick its tongue out.

16

17

Hydrogen is the most abundant element in the universe.

18

19

**Hanukkah begins** 22

23

The first several feet of the ocean holds as much heat as the entire atmosphere of the Earth.

24

Earth truly is a blue planet. About 70 percent of our planet's surface is covered by oceans and 94 percent of all life on Earth is aquatic.

25

**Christmas**

Red-eyed leaf tree frogs are completely nocturnal in nature.

29

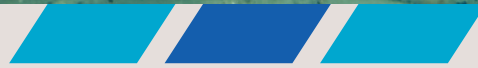

**Hanukkah ends** 30

**New Year's Eve** 31
